ShreeGen Pharma Ltd.

A **GMP** approved facility with strong **R&D** technical Team to support critical reactions

We welcome you to be Our partners for the
Global market

With strong manufacturing Skill and product knowledge,
We have the ability to develop new molecules as per
customer quality parameters

We have....

- Two manufacturing blocks equipped with 30 reactor ranging from 1kl to 8kl
- Total our reactors capacity is 100kl
- Ability for reaction temperatures from -20° C to 250° C
- We can handle chlorination, Bromination, Oxidation, Reduction, Recimisation, Pressure Reactions, Grigard Reactions etc.,
- High vacuum hot oil setup and distillation colums for solvent distillation and high vacuum distillations.
- Four clean room sections equipped with all suitable equipments like Crystallisers, ANFD's, Millers, Palverisers, Micronisers, etc., to manufacture four products simultaneously.
- Kilo range block (pilot plant) equipped with 50ltrs to 500ltr reactors with two clean room sections to support low volume products.
- State of Art Quality Control equipped with all qualified equipments like HPLCs, GCs, FTIR, polarimeter, autotitrater, stability Chambers for all conditions etc.
- Ware house for storage of Raw materials, APLs, Liquid Raw materials and Solents storage yard.
